Date: _____

Measurements Needed:

A - Width of box spring: _____

(Measure the top of the box spring from one side edge straight across to the other side edge.)

B - Length of box spring: _____

(Measure the top of the box spring from the head end edge straight down to the foot end edge.)

C - Drop Length: _____

(Measure from the top of the box spring straight down to the floor. Then subtract from this number how far off the floor you wish the skirt to hang to get your finished bed skirt drop length. Typically bed skirts hang 1/2" to 1" off the floor.)
